NSM Surveillance Announces Website Redesign

San Diego, California - July 27, 2010 – NSM Surveillance, a small business that provides technology services and surveillance solutions to Law Enforcement, Federal Agency and Military communities, launches new, professionally designed website.

The improved site contains extensive content, simpler navigation, and more functionality to more thoroughly explain NSM Surveillance's background, products & solutions, past performance, and expertise.

The simple and clean site design is a part of the company's mission to improve our communication to the marketplace and to better meet the needs of our customers and partners. With easier navigability, enhanced content, a streamlined support process, and an overall restructure, this website is to be a valuable asset for those seeking information about the company, our products, and the markets we service. Site enhancements include:

- Updated products pages that offer detailed explanations of our solutions
- Application Notes and a summary of past performance
- A resource library with White Papers
- List of Grant sources including Office of Justice Programs (OJP), GSA, and Department of Homeland Security (DHS)
- Streamlined Troubleshooting and Repair Process
- Online newsroom that will give customers and the media up-to-date information about company events and news announcements

We are proud to unveil our new website. The significantly expanded content and functionality makes it easier for potential partners and customers to understand our focus and full capabilities. This website is more professional and thorough in communicating to the marketplace the expertise and experience of NSM Surveillance as a leading provider of surveillance solutions and technologies for the military and law enforcement communities.

About NSM Surveillance: NSMS Surveillance develops state-of-the-art surveillance products and systems for the defense, homeland security, and justice and law enforcement markets.
